# Cloudrise

# SECURITY SERVICES, *ELEVATED*

**Cloudrise is a security services provider focused on protecting data — wherever it resides.**

On prem, in the cloud, or anyplace in between, Cloudrise is an extension of the team, tailoring our scalable service model to security needs across the entire data lifecycle.

We build, deploy, optimize, and manage forward-thinking data security programs on market-leading platforms. With centers of excellence in Colorado and London, our experience spans industries, geographies, and organizational sizes, demonstrating the success of our innovative and proven security talent acquisition and retention solution.

# WHY CHOOSE CLOUDRISE?

## Our focus is data security. Period.

With 100s of security programs and tech deployments under our belts, we stay focused on data. We do not dilute our services by claiming to be experts on all-things cybersecurity.

## Our programs make your tech sing.

A successful data security program governs your people, processes, and technology. Maximize value of your tech investment with a program that utilizes all its capabilities.

## We are an extension of your team.

A proven alternative to your talent acquisition and retention problems, we provide scalable expertise with a team of resources who truly understand your business needs.

## We are 'wired' services provider.

Going beyond traditional, reactive, eyes-on-glass services, we work with cloud-first tech, dynamically engage with your teams, and lead you along the path towards persistent data awareness.

> *"As a cloud-only, healthcare organization, we needed a more innovative security solution to protect our applications and PHI sitting in the cloud. We chose Cloudrise as our services provider. With Cloudrise managing the tech and our broader data protection program, we can better protect our infrastructure, users, and data by streamlining access to web and cloud applications and stopping confidential data exfiltration."*
