

## *An Integrated Solution for Securing Data Everywhere*

Data protection is becoming more complex every day, and we believe collaboration is the path to better protection for our customers. Cloudrise has partnered with Netskope to bring innovative solutions to our customers, driving value into your technology purchase.

*“We do not have a comprehensive program — what we do have lacks strategy & governance.”*

*“We need to ensure we are in compliance with current data privacy laws & regulations.”*

*“We do not have the capabilities to manage a program, and we cannot attract, retain, or cultivate talent.”*

*“Our technology stack is siloed and there are too many tools and not enough staff to manage.”*

### *How customers are benefiting from our expertise:*

**Increase ROI.** Operationalizing tools that are otherwise difficult to manage and staff so you have coverage.

**End the Talent Acquisition Cycle.** Stop the expensive, ongoing search for talent to run critical applications.

**Reduce Risk.** Ensure your data-centric program is comprehensive and continuously optimized.

**Tap Always Available Expertise.** Work with a team of experts who have implemented and optimized 100s of data-centric programs and technologies.

**Future-Proof Compliance.** Proactively stay in compliance with an ever-changing regulatory landscape.

### *OUR EXPERTISE*

**Data Protection**

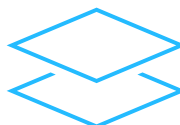

**Cloud Security**

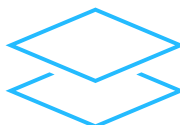

**Managed Services**

### *SUPPORTED TECH*

**Secure Service Edge**

**Cloud Security**

**Data Loss Prevention**

**Discovery & Classification**
